Gentlemen:

Your solid waste disposal facility located north of Woodruff and Edwards along the Fox River was inspected on January 25, 1982, by Rick Peterson, representing this Agency.

The inspection disclosed the following condition(s) which constitute violations of the Environmental Protection Act and Chapter 7 of the Illinois Pollution Control Board Solid Waste Rules and Regulations:

... Your solid waste disposal site does not have a permit issued by this Agency. Chapter 7 of the Illinois Pollution Control Board Rules and Regulations on Solid Waste provides in substance that, subject to the specific exemption contained in Section 21(e) of the Act, no person shall cause or allow the use or operation of any solid waste management site without an operating permit issued by the Agency.

Until such time as you obtain a permit from this Agency, it is suggested that you discontinue acceptance of solid waste at your site. All existing solid waste must be covered with a minimum of two feet of compacted earthen materials, or removed from your site and hauled to an approved solid waste disposal facility.

This information is provided to allow you the opportunity to verify or dispute the Agency's findings. I am available to discuss these violations, and a program to correct such violations, at your convenience. I await your reply.

Sincerely,

Kenneth P. Bechely, Northern Region Manager  
Field Operations Section  
Division of Land/Noise Pollution Control
